## About All Access:

### How much does it cost to join All Access?

There is currently no charge for you and your team to join the All Access network and receive access to resources and digital events.

### What types of resources are available?

We provide digital resources that we have produced or use to lead our ministries. From organizational charts and job descriptions to report templates, we share practical help so that you do not have to reinvent the wheel.

### What happens at an All Access live event?

We set aside two days as a staff to focus on you and your team. Our teams love to meet with their counterparts from other churches to offer support, resources, and provide a time of rich ministry.

We kick off an All Access event with a welcome dinner. This is a fun time to get together, meet new pastors and leaders, and enjoy some great Cajun food! Day 2 is filled with large group and break-out sessions. Pastor Jonathan Stockstill meets with senior pastors, while our executive and ministry directors lead different sessions on culture, team building, leadership, and much more.

We hope to host you here at Bethany Church for an All Access event!
